The month begins with Schoolwave, coming back strong at the Stavros Niarchos Park for three days of music, on 05-07/07. Peter Sellers, Cary Grant and Gene Wilder meet with Mowgli, Bambi and Scrat on the Great Lawn. Park Your Cinema features legendary comedies and children’s favorites. Nostalgic songs about unforgettable summertime romance, in an evocative Music Escapades concert known as the Erotica Project, on 12/07. This season’s first big Parklife outdoor concert features the unique Madeleine Peyroux on the Great Lawn, on 13/07. A tribute concert to Loukianos Kilaidonis takes us back to the best years of our lives, on 20/07; while on 27/07, the legendary Grandmaster Flash, the ‘70s hip-hop pioneer, alights on the Great Lawn. A traditional Greek shadow puppet theater screen is set up at the Panoramic Steps, and Karagiozis arrives at the SNFCC for three shows with Athos Danellis, on 15, 22 & 29/07. Jazz Chronicles welcome Billy Pod, on 19/07. The Greek premiere of dance performance SIREN by Swedish filmmaker and dancer Pontus Lidberg, a co-production by the Danish Dance Theatre, the Festival Oriente-Occidente and the SNFCC, will be staged at the Stavros Niarchos Hall on 28/07.
July at the SNFCC brings with it major concerts, classic and new film screenings, shadow theater, dance and many more summer activities and exciting events.

From Madeleine Peyroux (13/07) to hip-hop legend Grandmaster Flash (27/07), and from a major concert tribute to Greek singer/songwriter Loukianos Kilaidonis (20/07) to the Erotica Project which revisits Greek music from the summers of the ‘50s, ‘60s and ‘70s (12/07) and a jazz concert by Billy Pod (19/07) music just won’t stop this month! Starting with the return of the Schoolwave student music festival (05-07/07), the Stavros Niarchos Park’s Great Lawn will be hosting a big concert every week in July.

Dance is also in sharp focus this month. In addition to the popular Social Ballroom series, which is back with a vengeance on 06/07, all of July’s Fridays are dedicated to dance and its many facets. Sunday 28/07 marks the Greek premiere of SIREN, a dance performance by Swedish choreographer, filmmaker and dancer Pontus Lidberg, which is inspired by the myth of the Sirens and Ulysses. The performance is a co-production by the Danish Dance Theatre, Oriente Occidente contemporary dance festival and the SNFCC.

Park Your Cinema continues unabated, with legendary comedies and some of the most popular animated films: Peter Sellers, Cary Grant and Gene Wilder share the big screen on the Great Lawn with Mowgli, Bambi and Scrat. In addition, for yet another year, the SNFCC will be hosting pre-festival screenings by the Syros International Film Festival (SIFF), on 03/07.

For three consecutive Mondays, the SNFCC will be hosting Athos Danellis and the Athens Shadow Theater Company, in rarely performed plays from the popular shadow puppet theater repertoire of Karagiozis. However, our events do not end there! For this summer, the SNFCC presents new thematic activities, workshops and seminars daily, focusing on the environment, the arts and sports from many different perspectives. Moreover, Orfeas Avgoustidis will be our guide for this month in the new event series, A Walk in the Park (18/07).

As always, admission to this month’s SNFCC events is free thanks to the exclusive grant from the Stavros Niarchos Foundation (SNF).

Also, the SNFCC experience will be enhanced by new facilities, which are here to stay! Thanks to a new SNF grant, an exciting fountain installation will grace SNFCC’s seawater Canal, creating spectacular displays, day and night. In addition to that, the Dome, which was installed in the Labyrinth during SNF’s Summer Nostos Festival, will regularly host events throughout the year. This facility increases SNFCC’s capacity to host public performances in a new, impressive setting. And, every Sunday, the brand new δ / Delta Restaurant will be serving contemporary Greek cuisine with a twist, starting in the morning, featuring cuisine by executive chef Dimitris Skarmoutsos.

Summer in the city has never been so much fun!
SIREN
Pontus Lidberg & Danish Dance Theatre

Inspired by the Sirens’ myth in Homer’s epic poem *The Odyssey*, SIREN, the stand-alone dance work of the Swedish dancer, choreographer and Artistic Director for Danish Dance Theatre Pontus Lidberg is presented at the Stavros Niarchos Hall for the first time in Greece, performed by the Danish Dance Theatre, as a co-production with the Stavros Niarchos Foundation Cultural Center.

“SIREN has all the features of a masterpiece... A work both delicate and very dense with a feeling of truth, sustained by a rare expressive clarity”

LA REPUBBLICA

On Saturday July 13, the mesmerizing voice of Madeleine Peyroux will fill the Great Lawn of the Stavros Niarchos Park, setting the stage for a dreamy and poetic evening under the stars.

Visitors are advised to bring insect repellent and a mat, or a blanket for sitting on the ground.

Madeleine Peyroux

Saturday 13/07 | 21:00

GREAT LAWN

Peyroux’s extraordinary journey is one of music industry’s most compelling. Eight albums and 22 years since her debut *Dreamland*, the artist continues to challenge the confines of jazz, venturing into the fertile fields of contemporary music with unfading curiosity.

At her SNFCC concert the singer-songwriter will walk the audience through her latest album *Anthem*, her “biggest project to date”, whilst taking us back to favorite songs and tunes.

In *Anthem*, Peyroux has collaborated with writers/musicians Patrick Warren (who’s worked with Bonnie Raitt, JD Souther, Bob Dylan, Bruce Springsteen, Lana Del Rey, The Red Hot Chili Peppers), Brian MacLeod (who’s worked with Sara Bareilles, Leonard Cohen, Tina Turner, Ziggy Marley) and David Baerwald (who’s worked with Joni Mitchell, David and David, Sheryl Crow), casting a sober, poetic, and at times philosophical eye on the current state of the world and weaving the colorful stories of people confronting life’s challenges in a multitude of ways.

On Saturday, 20 July, Stavros Niarchos Park’s Great Lawn will resound with the music and songs of Loukianos Kilaidonis, in a tribute concert that will take us back to the best years of our lives.

Featuring music artists Manolis Mitsias, Margarita Zorbala, Doros Demostheneou, Thodoris Marantinis, Christos Papadopoulos and Maria Kilaidoni, actors Yannis Bezos, Alexandros Bourdoumis, Nandia Kantogeorgi and Giasseni Kilaidoni, backed by an eight-member band.

They will perform popular songs spanning the entirety of Kilaidonis’ discography, as well as songs and music he wrote for the theater. Rarely seen material from his personal archives will also be on display.

Through his well-loved songs and distinct personality, the Greek composer, lyricist and performer left an indelible mark on the best years of many different generations in the country. Popular with all ages, his songs spoke to all, with sincerity, immediacy, humor, feeling and finesse.

“I sincerely thank the SNFCC for the opportunity to perform Loukianos’ songs in the amazing Stavros Niarchos Park.

I am sure that were Loukianos alive, he would be most pleased, as the Park, and the entire complex, was a perfect fit for his style, taste and standards.

When he was treated at a hospital across the street from the SNFCC, which was under construction at the time, during the last difficult years of his life, I used to look out the window to the site and say: ‘Loukianos, this will be a wonderful venue. When you get well, we will do a concert there.’

Loukianos, here is the concert I promised you.”

Anna Vagena, Loukianos Kilaidonis’ companion

Visitors are advised to bring insect repellent and a mat, or a blanket for sitting on the ground.

For many, Grandmaster Flash is the international face of hip-hop and turntablism around the world, ever since he pioneered the art of mixing. Grandmaster Flash is the man who invented the cue button, as well as techniques like backspins, scratching and punch phrasing, thus changing the face of DJing forever.

Immortalized by Blondie and feted by the hip-hop cognoscenti, Grandmaster Flash is the man who turned the humble record deck into an instrument as potent as the piano or guitar. He was the first DJ to put out a rap record and in *Adventures On The Wheels Of Steel*, he created an aural template that let the world into the secrets of the New York ghettos. Years later - on top of no less than 11 studio albums - his biggest selling, multi-platinum hit singles such as “White Lines”, “The Message” and “Flash To The Beat” still resonate today.

In July, Park Your Cinema presents legendary names of American comedy, in films that continue to inspire to this day: Frank Capra’s humanism meets dark comedy in the film adaptation of an acclaimed play; Mel Brooks unleashes his satirical vein in his debut as a director (and receives an Academy Award while he’s at it); Blake Edwards takes fun to the next level, with a pure pop deconstruction of Hollywood.

**Arvin and old Lace (1944)**
*Thursday 11/07 | 21:00*
A down-on-his-luck Broadway producer and a timid accountant attempt the theatrical swindle of the century – a get-rich-quick scheme to put on the world’s worst show, hoping for it to flop so triumphantly that it will come down right after its premiere! They produce the musical *Springtime for Hitler*! Mel Brooks’ directorial debut, the film won an Academy Award for Best Writing, Story and Screenplay. A comedy that has taken on legendary proportions over the years, it was inducted into the American Film Institute’s 100 Funniest American Movies of All Time. Notably, the acclaimed late Greek director Andreas Voutsinas features in the cast. Almost ironically, the film was adapted into an incredibly successful Broadway musical in 2001, which was adapted for cinema four years later.

**Directed by Mel Brooks**

**The Producers (1967)**

**The Party (1968)**
*Thursday 25/07 | 21:00*
An Indian aspiring actor is invited by mistake to a Hollywood producer’s big party, after utterly ruining the set of his latest feature film! His appearance in the producer’s hi-tech villa will be just as disastrous. Few cinematic comedies have been so popular with the Greek audience. Peter Sellers’ hilarious acting coupled with Blake Edwards’ finesse and glam (in their only collaboration outside of *The Pink Panther franchise*) make for an indelible cult film that owes much to Jacques Tati’s style, while the main actor’s improvisatory style lent an air of radical experimentation to the production.

**Directed by Blake Edwards**

**Ice Age (2002)**
*Sunday 28/07 | 21:00*
Three mammals surviving the Paleolithic ice age come across a human baby and work together to return it to its parents and tribe, all while a young squirrel chases an acorn, causing irreversible damage in its wake. An enormous critical and commercial success, computer-animated comedy film *Ice Age* was nominated for an Academy Award in its category and by 2016 had already spawned four sequels. Credited with playing a big part in the popularity of the franchise, the unlucky, mischievous squirrel Scrat went on to star in many short films.

**Directed by Chris Wedge**

**The Jungle Book (1967)**
*Sunday 14/07 | 21:00*
Raised by wolves in the jungle, young Mowgli must be persuaded by a panther and a bear to return to his own kind if he is to avoid an evil tiger – will they manage to avert the confrontation? Disney’s 19th animated feature film, this was the last production in which Walt Disney was personally involved before he died. Based on Rudyard Kipling’s book of the same name, the film is adapted into a lighthearted children’s musical, graced with outstanding songs, including Academy Award-nominated “The Bare Necessities.”

**Directed by Wolfgang Reitherman**

**Bambi (1942)**
*Sunday 21/07 | 21:00*
A young deer named Bambi grows up in the forest, alongside his friends, a friendly rabbit called Thumper and Flower, a skunk that doesn’t really smell as great, as its name suggests. Based on the eponymous book by Austrian author Felix Salten, the fifth film in the Disney Animated Canon is one of the greatest examples of the genre and went on to become a perennial favorite of audiences around the world. Paradoxically, the film was a commercial flop when it first came out, released during the Second World War, it failed to reach many European countries. Nominated for three Academy Awards (for Best Music Score, Best Original Song and Best Sound Recording), it is inducted into the U.S. National Film Registry.

**Directed by David Hand**

**Directed by Frank Capra**
In July, Athos Danellis and the Athens Shadow Theater Company set up stage on the Panoramic Steps for three Mondays, to revive rare plays from the Greek Karagiozis repertoire, inviting young and old to follow the popular folk hero in his adventures and laugh their hearts out. Karagiozis is the most representative form of Greek Shadow Puppet Theater.

Karagiozis is a fictional character of Greek folklore: a poor hunchbacked Greek, his right hand is always depicted long, his clothes are ragged and patched, and his feet are always bare. He lives in a poor cottage with his wife Aglaia and his three sons, during the times of the Ottoman Empire.

Monday 15/07: Karagiozis at Gülbahçe
The Pasha appoints Hadjiavatis and Karagiozis to run Gülbahçe, an old countryside restaurant. The opening night is fast approaching and everything goes well – until Karagiozis discovers the kitchen!

A folk music comedy harking back to Ottoman Puppet Theater.

Monday 22/07: The Three Pilgrims
Two pilgrims, loaded with treasures, pass by the city en route to the Tomb of the Prophet. By decree, a curfew is imposed, and offenders will be arrested. Karagiozis is quick to seize the opportunity and act.

One of the oldest comedies in the Greek Shadow Theater repertoire.

Monday 29/07: Captain Tromaras
Karagiozis and Hadjiavatis become entangled in a notorious affair involving a wealthy local lord, the Salona Pasha, an abbot and the infamous Captain Tromaras.

A play from the "bandit" repertoire of the 1910s. One of the most characteristic examples of the genre, the play fell into oblivion for some 70 years – until 2016.

The SNFCC in collaboration with Syros International Film Festival is hosting a pre-festival screening for the second consecutive year, with two very special films that reflect this year’s theme, Overexposure, and signal at the same time the opening of SIFF’s 7th edition.

Overexposure as a phenomenon spans from the photographic film to information overload, from natural disasters to the vulnerability of the human body, and beyond.

The pre-festival event at the SNFCC will begin with the screening of Luigi Campi’s short film Greengreen Screen screen (2017), an imaginative tutorial for the Green Screen, with countless images that spring from this monochrome surface with the use of special effects and, of course, with the help of the camera. Luigi Campi will be attending the screening and presenting his film.

At the second film screening, the audience will meet with the blistering sci-fi dystopia of Halbe Welt (1993), the first feature film of the Austrian filmmaker, Florian Flicker, which received, among others, the Jury Prize at Geradmer Fantasy Film Festival. In Flicker’s cinematic world, the sun blazes down from the sky with destructive power. In order to survive, people have transposed everyday existence to the night. An exciting universe is revealed in which resistance and resilience create new forms of life in the “deadly sunny” metropolis where everyone is looking for a way to survive.

The 7th Syros International Film Festival will take place from 16 to 21 July 2019 in the island of Syros. Founded in 2013, SIFF embeds a wide spectrum of screenings, performances, workshops, and parties into the remarkable setting of Syros. Highlighting the island’s cultural heritage, the Festival reactivates historical and repurposed sites as screening spaces, proposing for six days an augmented, unique cinematic experience.

The implementation of the Festival is realized with the exclusive support of the Stavros Niarchos Foundation (SNF).

Weekends at the SNFCC

July weekends at the SNFCC offer environmental events, sports and the arts! Would you like to learn how to make your own handmade soap? Are you passionate about botany and the Mediterranean flora? Eager to practice your skating and cycling skills, or get to know the world of e-bikes? Or perhaps dream of an exciting island-hopping picnic? New summer programs await you in the Stavros Niarchos Park!

Botany: Drawing on Paper

Drawing inspiration from their immediate surroundings, children acquaint themselves with the Mediterranean flora in the Park. They learn about botany and botanical practice, while observing the physiology, texture and properties of each plant.

Then, using fine drawing pencils, colored pencils and rice paper, they capture in full detail the anatomy of plants and create their own botanical art collection.

An Island-hopping Picnic: Rhodes, Corfu, Santorini, Crete

The summer is here, and we are ready for a picnic on the beach! Our baskets will be empty this time around so that we may fill them up with flavors and artworks from the islands we visit.

In a fun game, flipping arrows on a map tablecloth, we travel from the Ionian Sea to the Dodecanese, exploring the unique flavors that each island is famous for. With paper, paints and a great mood for play and exploration, we prepare for the coolest picnic of the summer!

Roller Skates for adults

Recreation, exercise or transport? Skating ticks all the boxes! Practice your balance while skating, in self-contained introductory classes for adults.

No previous experience required.

Participants are requested to bring their own equipment (skates, helmet, knee pads).

Cycling Classes for Children and Adults

Children are introduced by experienced trainers to simple techniques that enable them to enjoy cycling without training wheels, while also helping those who already know how to ride to improve their skills. For adults who wish to learn how to ride a bike, specially designed classes are available.

Participants are encouraged to bring their own bicycle.

Summer Mediterranean Garden Secrets

A series of meetings and workshops focusing on the colors, scents and medicinal properties of Greek summer garden plants and herbs.

In July, we experience the natural beauty of a xerothermic Mediterranean garden. We learn about shrubs, succulents, evergreen sclerophylla, medicinal and aromatic herbs, as well as the Greek summer vegetable garden. We enjoy the colors and scents of these plants in a guided tour in the Stavros Niarchos Park.

E-bikes: Test The Future

SNFCC introduces you to the world of e-bikes, in a great opportunity to try out the growing trend in urban and recreational cycling.

We invite you to enjoy a unique experience, cycling on the SNFCC bike lanes!

The Art of Soap Making

In July, a course for learning how to make natural, handmade soap is launched. The workshop aims to familiarize participants with the fundamentals of the soap-making process, while also introducing the necessary equipment, safety measures and procedures, as well as discussing the use of essential oils and other additives. In the last part of the workshop, we build our own soap and find practical solutions to any problems that may arise.

More information on our regular weekend events on p. 24-27

Leaving dry land behind for a while, we dive deep into the sea, looking for left or lost ghost nets, which haunt the seabed and ensnare fish, turtles, dolphins and other species.

How did they end up there? What problems do they cause to the sea bottom? What can we do?

Through original activities, children discover the causes and effects of ghost nets, they also get an opportunity to chat with a technical diver from Ghost Fishing Greece, an organization engaged in removing lost fishing gear from the sea.

Panel discussion: Fishers, Ghost Nets and Circular Economy

Scientists estimate that 640,000 tons of fishing gear end up lost in the seas and oceans every year.

Not being biodegradable, nets remain on the seabed for hundreds of years, causing great damage to the marine ecosystem. Non-profit initiative Healthy Seas – A Journey from Waste to Wear, in collaboration with Enaleia, the first professional fishing school in Greece, talk about the invisible yet significant issue of ghost nets, what it means for fisherman, and the solutions afforded by circular economy.

Starry Nights: Moon and Jupiter

In collaboration with the National Observatory of Athens (NSA), the SNFCC launches a new event series, inviting the public to enjoy unique thematic evenings under the stars.

In a talk and astronomical observation using NSA’s telescopes in the Southern Walks, we observe the celestial dome: the Sun, the Moon, the planets, stars and constellations, and how they are identified in this specific time of year.

In July’s session, we will explore the Moon and Jupiter, and learn about their characteristic features, their birth, as well as their similarities and differences with the Earth.

On Thursday evenings in July, we look up and become acquainted with the sky and the stars! Join us and observe the Moon, planets and constellations by telescope! Travel to distant galaxies in our theatrical games – who knows, you might get to meet with aliens! Follow the path of the Sun and explore SNFCC’s sustainable architecture.

Dance, Dance, Dance!

What better to do on a Friday than go dancing? Feel the rhythm in movement, but also learn to appreciate it in the art of sculpture. Discover another aspect of dance through the chorus of an Aristophanic comedy and create artworks inspired by dance. Indulge in hula hoop tricks and feel the power of movement as you practice the steps of Greek folk dances or romantic Argentine tango.

Sculpture and Dancing: From Material to Movement

Throughout the centuries, sculpture has been inspired by the human body and movement. Using various forms and compositions, sculpture was able to express the immutable and the monumental, as well as the ephemeral and the abstract.

This workshop invites the public to explore the interconnection of sculpture and dance through the use of simple, everyday materials, such as paper, wood, wire and plaster – this is a fun opportunity for participants to explore the history of art.

Participants in July’s session will explore twentieth-century sculpture, with an overview of major artists and movements. They will consider the key elements – composition, space, tension and rhythm – and will produce small compositions of their own, using acrylic clay.

Penny Marathon

For a third year, the SNFCC is hosting Penny Marathon’s last 10k, in which participants can run or cycle. You can bring your dog, too, for the last 2k!

Penny Marathon began in 2012 in Athens as an initiative by two Greek-Australians. Although not runners themselves, they decided to start a project to raise awareness of stray animals, whose number exceeds 600 million worldwide. The marathon was named after Penny, a stray dog that, like thousands of others, could not survive on streets of Athens. In support of stray animals in Greece and the volunteers who give their best for them, Penny Marathon participants run, swim, cycle and paddle for a total of 42km.

Want to know more about the SNFCC? We offer daily guided tours of its award-winning building complex, home to the new premises of the Greek National Opera (GNO) and the National Library of Greece (NLG), designed by the Renzo Piano Building Workshop. Discover public areas and go backstage in the two buildings. We will visit the rehearsal spaces, the Stavros Niarchos Hall and the Greek National Opera’s Alternative Stage, and stroll through the Library’s Public Section, Reading Rooms and Vaults.

Guided tours of the Stavros Niarchos Park, which recently won the first prize at the European Garden Awards and is the largest public Mediterranean garden in the world, are conducted daily.

Guided tours are designed according to sustainability principles, with the Stavros Niarchos Park design, which was awarded at the first modern Olympic Games in Athens in 1896, being a prime example. The public is kept permanently on display at the SNFCC.

The SNFCC is the first cultural project of this scale to earn the LEED Platinum Certification in Europe.

An example of the state-of-the-art landscape architecture, the city’s new Park is designed according to sustainability principles, with respect for the ecosystem and the challenges of an ever-changing environment. A welcoming, open space, whose vegetation and overall design capture the essence of the Mediterranean landscape, is open for visits daily.

Members’ Tuesdays

A day dedicated to our Members!

Every Tuesday afternoon, discover the art forms of sculpture and ceramics, find out what the visual arts and dance have in common, practice in the making of natural handmade soap and go sailing!

Sculpture and Dance: From Material to Movement
Throughout the centuries, sculpture has been inspired by the human body and movement. Using various forms and compositions, sculpture was able to express the immutable and the monumental, but also the ephemeral and the abstract.

This workshop invites the public to explore the interconnection of sculpture and dance through the use of simple, everyday materials, such as paper, wood, wire and plaster – this is a fun opportunity for participants to explore the history of art.

Participants in July’s session will explore twentieth-century sculpture, with an overview of the painting and dance – this is a fun opportunity for participants to explore the history of art.

The Birds: The language of birds
July is dedicated to Aristophanes and his comedy The Birds, which narrates the tale of two friends who leave Athens in pursuit of a new city. They find it in Nubicurola, the land of birds. Drawing inspiration from Aristophanes’ play, we will explore the symbolism of birds in painting and dance, and use it to create our own art using common, everyday materials.

Dance Differently: From Aristophanes to Keith Haring
Starting with an overview and the highlights in the evolution of dance – from Greek drama and Aristophanes to Diaghilev’s Ballets Russes and Keith Haring’s dancing figures – this new workshop invites you to explore the intersection of the visual arts and dance, creating a different art piece each time, inspired by a dance-themed artwork.

The Art of Soap Making
A course for everyone who wishes to gain basic knowledge in the making of natural, handmade soap. The workshop aims to familiarize participants with the fundamentals of the soap-making process, while also acquainting them with the necessary equipment, safety measures and procedure, as well as with the use of essential oils and other additives. The last part of the workshop will provide opportunities for practice: Each participant will make their own soap, while getting practical tips for dealing with any issues that may arise during the process.

Ceramics Lab: From the Tile Maker to the Potter
Pottery is an art involving earth, water and fire. Examples of antique pottery and contemporary design stimulate workshop participants to a hands-on exploration of pottery making and decorating techniques, while learning interesting tidbits about the art of pottery. Together, children and grown-ups will make unique, natural clay to build forms by hand, translating imagination into art through creativity.

Sailing the Canal: Classes for SNFCC Members on the first Tuesday of every month
A series of sailing events, involving different vessel types, both in the Canal and on land, as well as innovative educational activities for children and adults.

Bilby’s Workshops
Within the Members’ Tuesdays, we explore the art forms of sculpture and ceramics, find out what the visual arts and dance have in common, practice in the making of natural handmade soap and go sailing!
